STATUS OF TTIC ACTIONS: JUNE 1986I. Highlights

- o At the request of PFIAB, the Chairman, TTIC, along with CIA and FTD analysts briefed a PFIAB working group comprised of Dr. John Foster, Senator Baker, and General Schreiver on the technology transfer white paper. The PFIAB working group is reviewing the Intelligence Community's role in assessing the technology transfer implications of the SDI program. Dr. Foster strongly recommended that select Congressional committees and Lt. General Abrahamson be briefed on this sensitive material. [REDACTED]
- o A draft TTIC memorandum which highlights ways that TTIC can respond to SDIO intelligence requirements was forwarded to members for review. Potential TTIC actions include assessments of the likelihood of technology loss from foreign SDI participants, COCOM member and cooperating third country attitudes about controlling SDI-related technology, Soviet efforts to target the SDI program, and the effectiveness of bilateral security agreements with COCOM partners for SDI technology sharing. [REDACTED]
- o TTIC's Subcommittee on Exchanges (COMEX) completed a review of 21 S&T workshops that will be discussed with the Soviets as part of the National Academy of Sciences/USSR Academy of Sciences S&T Agreement. [REDACTED]
- o State/INR asked TTIC to accelerate the study on technology transfer from and through Greece to the USSR in order to support NSC policy discussions on whether to review US license applications for high technology exports to Greece. [REDACTED]
